EXPERIENCE

Intern   feb 2023 – may 2023

Aceplora Tech   Lagos, Nigeria

- Achieved high percentage of growth in web development (front-end) using HTML, CSS and JAVASCRIPT.
- Developed the skills to understand and interpret UI designs to create a good user experience.
- Developed user interface of a hotel website where users can check the hotel facilities and book their preferred room.
- Learnt about CSS and JavaScript library/framework like boostrap and reactjs.

PROJECTS

Hotel Website. Built an interface where new customers visiting the hotel can read about the hotel facilities like gym, spa and also read about different rooms available at the hotel with option to book a room for themselves. This was achieved using HTML, CSS and JAVASCRIPT.

Weather Application. Built a web application that gives weather update of your current city using Html, CSS, and Javascript. This project was built using the weather API to give the update.

EXTRA-CURRICULAR ACTIVITIES

- Sports
- Mentor young people in high school on career path.

LEADERSHIP

- HR intern at Flour Mills of Nigeria with many Job seekers and interns. Involved in recruitment of new interns and monitor their welfare in the organization by making sure their needs are met.
